Harry Potter and the Prisoner of Azkaban

Fantasy - 2004

This film is about the life of Harry Potter and his friends. The film is based on a book of J.K.Rowling. It set is in London and Oxford University is home to some of the most important scenes. It's a fantasy movie, filmed in 2004 and my favourite character is Sirius Black, because is very kind and brave.

I think that it is a very good film for people that like sci-fi and fantasy films with magicians and I recommend it to families. All the books are very good too.

Go and watch it now!!

The Upside

Comedy-drama - 2017

The upside is about a paralysed billionaire and a recently released convict whom he hires to take care of him. They quickly establish a great relationship. It is based on a true story, the life of Philippe Pozzo di Borgo. This film was set in America.

I adore the acting in this film. Kevin Hart stars as Dell Scott and Bryan Cranston as Philip Lacasse. My favourite character is Dell Scott because he's really funny and he is a clear example of how a person can change thanks to other people.

I think this is an ideal film for people who like true stories and it's for everyone. It is funny too, there are loads of laughing scenes.

I give The upside ★★★★★ Don't wait too long to go and see it!

The Last Summer

Rom-com - 2019

The film is set in United States and it was released in 2019, by Netflix. Its tells the story of a group of friends who want to feel new emotions or have romantic experiences before going to college.

The protagonists are a group of teenagers who have just graduated. However, the film is based on the lives of Phoe (Maia) and Griffin (KJ). The main actors meet at a graduation party and begin to get to know each other as Griffin is helping the Phoe with her documentary until they fall in love. My favourite character is Phoe, because she always fights for her dreams.

I think this is an ideal film for people who like a good romantic comedy. I give it ★★★★★. Go and watch it soon!

Irreplaceable You

Romantic, comedy-drama - 2018

Irreplaceable You tells the story of a young couple who had everything planned since they were little, Abbie and Sam, but they did not have the fate that would make them face a great test, Abbie's illness. The two will change their plans, realizing that they can do nothing to change the state of the disease to follow their dreams. Abbie was afraid that Sam's future was not what he wanted, and began to take care of his future... looking for a new partner, since her main concern was him to be left alone.

The acting of this movie is ideal. Gugu Mbatha-Raw (Abbie) and Michiel Huisman (Sam) are the main characters. My favourite character is Abbie, since she makes us see how to deal with the disease and is an example of self-improvement who, despite all the problems, wants the best for Sam.

I think this movie is very beautiful, since it is emotional and helps us see how we should not give up.

Irreplaceable You ★★★★★ (FANTASTIC!) you must see it now!

Joker

Psychological thriller – 2019

This movie was made last year in New York. There is a special scene, when Joker is dancing on the stairs, which was filmed too in New York and became the cover page of the film.

The film is about Arthur Fleck, a man who lives in Gotham city with psychological problems, suffering from schizophrenia, who wants to make people happy, but suddenly starts laughing at inappropriate times. His mother too is mentally ill, and she is convinced that the father of Arthur Fleck is a millionaire. Arthur knows the truth about his dad. He was adopted, and when he finds this out, he gets angry, kills his mother at the hospital, and in the subway, shoots 3 people dead. He then wears his clown uniform and goes around Gotham city killing people.

Star Wars – The Rise of Skywalker

Fantasy, sci-fi, adventures - 2019

Star Wars - The Rise of Skywalker is about the Jedi Rey. The film is based on a fiction galaxy war and the characters interacting with strange groups like the force or its opposite, "The Dark Side". The film is set in the space in the XXII century. It tells the story of the Rey and her adventures to find information about her ancestors but her enemies don't want her to.

I like this film because it has many emotional scenes like the love between Rey and Kylo or sad scenes like the one of the death of Kylo. Mark Hamill stars as Luke Skywalker and Adam Driver plays the role of Kylo Ren, while Daisy Ridley stars as Rey. I believe this is an ideal film for people who like science fiction and action movies. Some scenes may be boring but all the film is good and entertaining. It's fantastic and I recommend it.

Dolphin Tale

3D family drama film - 2011

“Dolphin Tale” is a movie inspired by real events. The story is about a dolphin named Winter who is caught in a crab trap and his tail gets badly damaged. He is saved and taken for treatment to a marine hospital. There, doctors try to cure its tail but it is not possible because it is too damaged and must be amputated. With no tails, dolphins can die. For this reason, a very famous doctor is called to help the dolphin. He designs a prosthetic tail and also helps other people with his inventions. I think the film is based on daily struggles, on not giving up and the idea that love moves the world. The protagonists are people who love Winter very much and do their best for him. I liked the ending because Winter is saved and also helps people who need it.

All the Bright Places

Biographical drama/romance, 2020

“All the bright places” is about two teenagers, Violet and Finch. The film is based on a book with the same name. The film is set in Cleveland, Ohio. It tells the story of two teenagers fighting with emotional and psychological scars of their past. Together, they discover that even the smallest moments can be relevant.

I love the acting: Elle Fanning stars as Violet Markey and Justice Smith stars as Theodore Finch. My favourite character is Finch because he helps her with her depression.

I think this is an ideal film for people who have lost a family member. The story is very sad but very beautiful at the same time.

I give All the Bright Places ★★★★★ Go and watch it!

Me Before You

Romantic drama – 2016

“Me Before You” is a movie released on June 3rd, 2016 by director Thea Sharrock. This English film is based on a book.

It is dramatic and romantic. The movie is about a boy who is paralysed due to a car accident and a girl who goes to his house to take care of him. The two fall in love with each other.

The main protagonists are the actress Emilia Clarke, who plays the role of a young, smiling and fun girl, and Sam Claflin, who plays the role of a disabled young man and as a quiet sad person. Emilia Clarke is my favourite character because she helps Sam with his illness.

This movie is recommended to all people who love romance. I loved the movie, I hope you’ll see it and that you’ll love it as much as I did.
